TACT SWITCHES WITH EXTENDED LIFETIME FOR DEMANDING APPLICATIONS

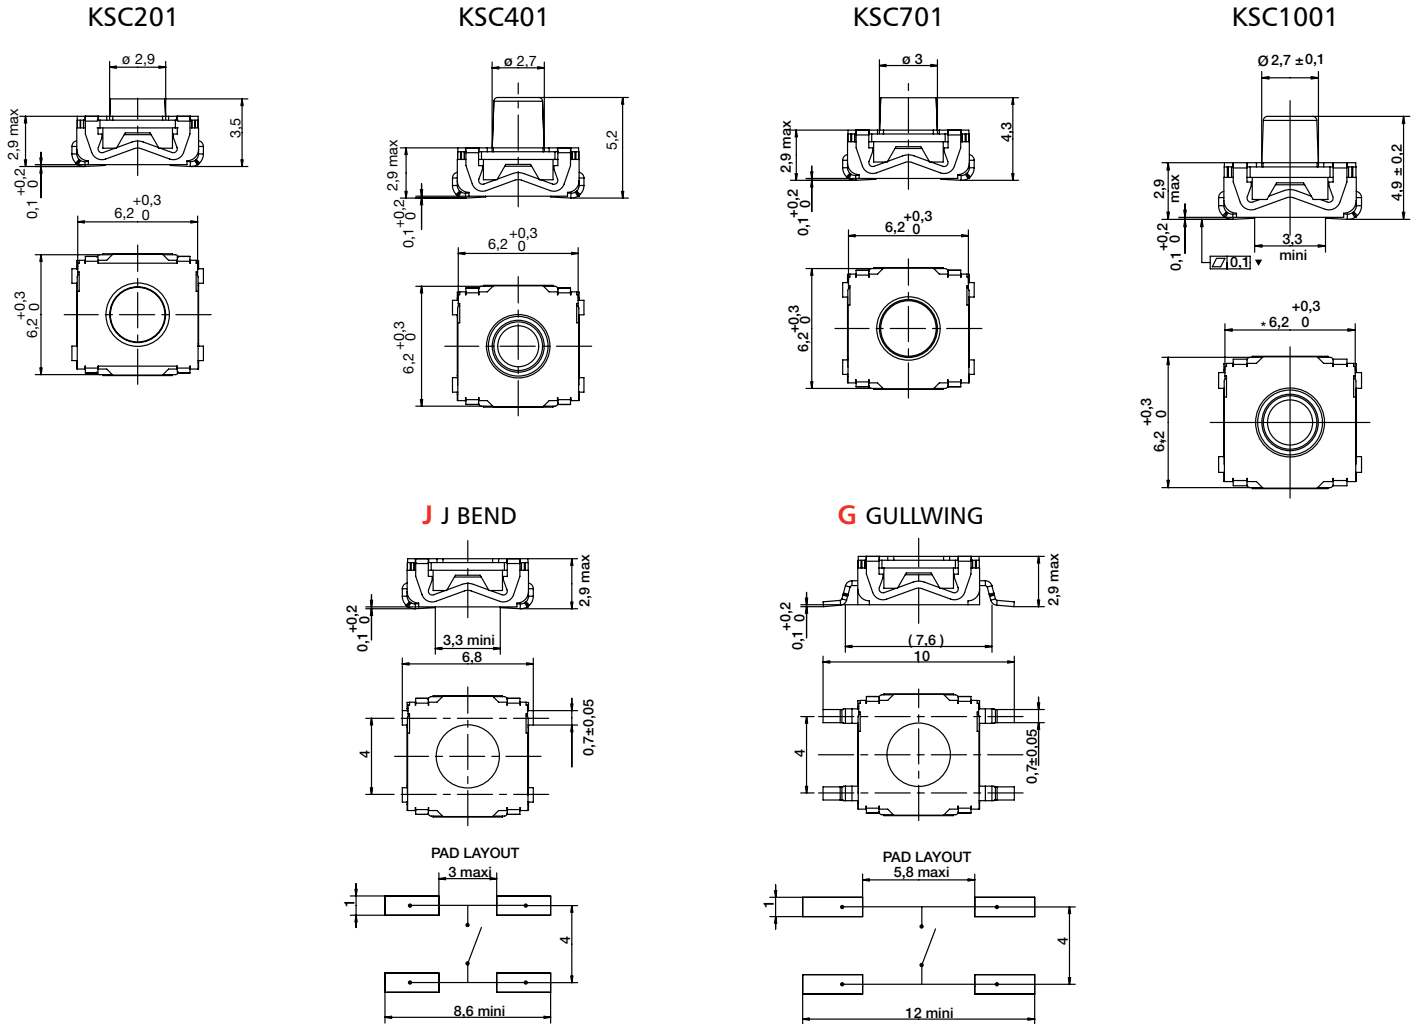

KSC201, KSC401, KSC701 and KSC1001 are designed to withstand intensive use. These ultra long life switches can last up to 5 million cycles. Varying the hardness of the silicon actuator allows adjustment of switch actuation force and pre and post travel parameters. These switches are available with J bend and Gullwing terminals.

Typical applications:

Elevator • Joystick buttons • Other long life applications
